If you cross the line of Meridian at 180°
and sail out of West Long into East you must
use the Date of the month one day less.
And if I cross the Meridian and go out
of East Long. into West I must add one to
back Date.

A simple Method of finding the Long by Chronometer
15 or 20 minuts before the M. Meridian Observed Altitude
of the Sun and note the time by Chro. 15 or 20 minu-
uts after Meridian when the Sun is at the same
Altitude as when first Observed and note the time
by Chro to the same of the Obs take the half sum
to which apply the error of Chro. Apply the Equa-
tion of time contrary to what it is in the Almana-
